

The top of the page is decorated with a border of white snowflakes of various sizes and orientations, set against a dark background.

CAPE HENLOPEN SCHOOL DISTRICT

Student Instructional Plan for Inclement Weather

2021-2022 School Year

Since winter weather season is still upon us, we would like to share with you updated plans for inclement weather scenarios.

Weather Emergencies Over Consecutive Days

Option A – No School/Instruction

Option B – Asynchronous instruction or a combination of synchronous and asynchronous instruction posted for students in Seesaw or Schoology.

Mr. Fulton's morning school cancellation call will explain if there will be:

- a. No school that day,
- b. Asynchronous instruction or a combination of asynchronous/synchronous instruction for the day.

Power outages, severity of weather, and other unforeseen circumstances may ultimately impact the plan for the day. Any specific information will be communicated as warranted.

Instructional Scenarios:

No School/Instruction

Synchronous classes run in real time, with students and instructors attending together from different locations.

Asynchronous classes run on a more relaxed schedule, with students accessing class materials during different hours and from different locations.
