CAPE HENLOPEN SCHOOL DISTRICT
Technology Acceptable Use Reminder

Given the current circumstances we realize that students will likely be utilizing technology outside of school more frequently. We wanted to take this opportunity to remind both students and parents of our *Board Policy #100 - Programs, Section 111: Technology Protection Measure and Internet Safety Policy.*

Below is an excerpt from that policy highlighting Acceptable and Unacceptable uses of Technology for Students.

Acceptable Uses of Technology for Students
• Using technology in the District in a manner consistent with the academic goals of the school and District.

• Accessing systems using only authorized usernames/passwords.

Unacceptable Uses of Technology for Students
may include, but are not limited to the following, which may result in disciplinary or legal action:

• Harassing, insulting, or attacking others

• Intentionally damaging computers, software, systems, or networks

• Revealing personal information or parents' personal information such as addresses, telephone numbers, credit card numbers, etc.

• Sending or displaying messages or pictures that are offensive

• Using obscene or profane language

• Violating copyright laws

• Using the network for illegal or commercial purposes, including "hacking" and other unauthorized access

• Using or bypassing another person's username and password

• Trespassing in another's folder, work, or files

We hope this reminder is helpful. By following these guidelines, students will be able to conduct themselves appropriately when using technology during this period of Remote Learning.
