You can also reach me via **Schoology message**

All necessary information for summer work will be communicated and available through a Schoology course called “AP Biology Summer Work 2023”

The access code for the Schoology course is: **H4TC-M3JB-GQQ3W**

The work will consist of two primary activities.

1. The first Activity will be to complete the “book work” aspect of the unit using Khan Academy. The Ecology Unit in Khan academy consists of:
 - 6 sections, each with practice problems
 - 2 quizzes
 - final test.

Sign up for the Khan Academy Course by clicking on the following Link:

<https://www.khanacademy.org/join/28YVX8SN>

OR

<http://www.khanacademy.org/join> and type in 28YVX8SN

All Khan Academy work needs to be completed by 8/30/2023 @11:59 pm.

Our first class meets 9/6/2023 or 9/7/2023.

There will be three check points for Khan Academy where you will take a short “quiz” in Schoology – separate from those generated by Khan Academy. Quizzes will be 5-10 questions and will cover material from 2 Khan Academy sections at a time.

Quizzes will be available in Schoology:

July 10-14 - Responses to the Environment and Energy Flow Through Ecosystems

July 31-August 4 - Population Ecology and Community Ecology

August 28-September 1 - Biodiversity and Disruptions to Ecosystems

The Second Activity is a digital journal. All material for this is available online through the Schoology course.
