

DEL TECH CONNECTS PATHWAYS

The College is proud to be a partner in the Delaware Pathways initiative. Delaware Pathways is a vehicle to ensure all high school students have the opportunity to fulfill their educational goals and career aspirations. Career pathways begin in the public education system (K-12) through the development and implementation of Career and Technical Education (CTE) programs of study. These pathways allow for students to participate in work-based learning opportunities and provide articulated credit toward many Delaware Tech degree and workforce training programs.

Allied Health

Earn Delaware Tech credits for successfully completing your high school pathway

Take Delaware Tech courses through your school's dual enrollment program or as a Delaware Tech visiting high school student

DELAWARE TECHNICAL COMMUNITY COLLEGE

Apply earned college credits to one of our programs of study.

go.dtcc.edu/programs

Obtain a certificate or associate degree at Delaware Tech

Continue your education with one of our connected degrees programs
