The Academic Challenge Program invites interested 7th grade students and their parents to an Information Webinar via Zoom.

The Academic Challenge Program is a partnership between the Sussex County School Districts and Delaware Technical Community College. Students take accelerated courses and can earn college credit while still enrolled in their home school program of study.

The meeting will give an overview of the program, the qualification requirements, and the spring selection process for the 2020-2021 school year.

The webinar will be recorded and posted at our website for those who are unable to attend: <https://www.academicchallengetheflyingcow.com>.
